PROFILE

Creative director and venture architect who builds brands from cultural insight outward — rooted in anthropology, psychology, and pre-law. Seven years of turning human questions into living ventures: co-founder of QZine Connex; creator of Guntur Gourmet, Raga Rasa, and Nela Kapi. *Understand the culture, map the psychology, design the system, express the identity, build the venture.*

Every unfamiliar domain is an invitation — I enter new projects the way an anthropologist enters a culture: with empathy first, listening before designing. From F&B to real estate to artisan craft, each world has taught me a new grammar of human behaviour.
